

Aplikacije

Joomla specific web hosting platform allows you to quickly and easily use any of the over 1,100 applications available for Joomla within your website.

To make website building even easier, all of our hosting plans also come with a growing list of the most popular applications already installed. Today, there are over 25 applications pre-installed and pre-configured to be used out-of-the-box.

Below is just a few of the applications that are available today through the Joomla community:

- Dynamic form builders
- Business or organizational directories
- Document management
- Image and multimedia galleries
- E-commerce and shopping cart engines
- Forums and chat software
- Calendars
- Blogging software
- Directory services
- Email newsletters
- Data collection and reporting tools
- Banner advertising systems
- Subscription services
- Inventory control systems
- Data reporting tools
- Custom product catalogs
- Reservation systems
- Communication tools
- Application bridges
